WooCommerce to Shopify

Migration checklist

Migrate

- [ ] 1. Connect your WooCommerce store
- [ ] 2. Run a demo migration (optional)
- [ ] 3. Spot-check the demo (if you ran a demo)
- [ ] 4. Run the full migration
- [ ] 5. Spot-check the full migration
- [ ] 6. Enable daily syncing (optional, unavailable on development stores). Included for 60 days after the first completed full migration, including free-tier, paid and fully discounted migrations, then US$9 per 30 days. Demos do not unlock it and reruns do not restart the period. Manual updates stay free.

Before going live

- [ ] 7. Configure your store
  - [ ] Business details
  - [ ] Payments
  - [ ] Taxes
  - [ ] Shipping
  - [ ] Markets
  - [ ] Review customer emails
  - [ ] Customize your checkout
  - [ ] Test order
- [ ] 8. Set DNS TTL low, 24 to 48 hours ahead (optional)
- [ ] 9. Remove Shopify's password protection

Go live

- [ ] 10. Back up your old store
- [ ] 11. Switch your old store to maintenance mode
- [ ] 12. Run an update to catch the latest products and orders
- [ ] 13. Point your domain at Shopify
- [ ] 14. Verify the live store
